SUMMARY

Entry-level Data Analyst with hands-on experience transforming raw data into actionable insights using SQL, Python, Excel, Power BI, and Tableau. Built automated reports and interactive dashboards to improve data visibility and support business decisions in academic and project-based settings. Strong foundation in data wrangling, ETL, and visualization, with a results-driven focus on clarity, accuracy, and measurable impact.

SKILLS

- **Data Analysis & Visualization:** Excel (Advanced), Power BI, Tableau, Matplotlib, Seaborn, Plotly
- **Programming & Scripting:** Python (Pandas, NumPy), SQL (Joins, Window Functions, CTEs, Aggregations)
- **Database Management:** MySQL
- **Analytics Techniques:** ETL/ELT, Power Query, Data Cleaning, EDA, KPI Tracking, Dashboarding

PROJECTS

Netflix Movies & TV Shows Data Analysis | SQL | [Link](#)

- Analyzed 8,000+ Netflix titles using SQL to uncover trends in content type, ratings, and regional distribution.
- Applied advanced SQL queries with CTEs and aggregations to extract insights on movie duration, release year, and country trends.
- Identified top-performing regions and content trends, enabling 25% faster data-driven content strategy decisions.

Zomato Data Analysis | Python | [Link](#)

- Performed data-driven analysis on Zomato restaurant data to uncover customer preferences, pricing behavior, and ordering patterns.
- Cleaned and transformed data using Pandas, then performed EDA with Matplotlib/Seaborn to uncover trends across ratings, cost, online orders, and dining categories.
- Identified key consumer patterns—such as 3.5–4 rating dominance, 300 INR cost preference, and higher online-order ratings—supporting data-driven decisions for restaurant strategy.

Spotify Dashboard | Power BI | [Link](#)

- Built an interactive Spotify analytics dashboard to analyse 28K+ songs, 340+ artists, popularity trends, and listening patterns.
- Processed and modelled song-level data in Excel/Power BI, creating dynamic visuals for popularity, distinct songs, album types, artist insights, and monthly trends.
- Delivered insights on top artists, most-popular songs, peak months, and album-type patterns—boosting decision-making speed by 40% through a highly visual, intuitive dashboard.

Adidas Sales Performance Dashboard | MS Excel | [Link](#)

- Designed an interactive Excel dashboard to analyse 1,000+ Adidas sales records across 5 regions for performance tracking.
- Processed and visualised data using PivotTables, charts, and KPIs to uncover key sales and regional trends.
- Cut reporting time by 60% and enabled data-driven decisions through clear, actionable performance insights.

EDUCATION

Shivaji University | Kolhapur, IN

Dec '21 - May '25

B.Tech. in Computer Science and Technology

CERTIFICATIONS

- **Advanced Certificate in Data Science** | upGrad | [Link](#)
- **Career Essentials in Data Analysis** | Microsoft and LinkedIn | [Link](#)
- **Python** | HackerRank | [Link](#)
- **SQL (Intermediate)** | HackerRank | [Link](#)
